

2013 San Juan 21

North American and Eastern Nationals Championships

Preliminary Notice of Race – April 2012

The San Juan 21 Class Association Executive Committee has accepted the Columbia Sailing Club (CSC) and Lake Murray San Juan 21 Fleet #31 bid to host the 2013 San Juan 21 North American Championships to be held 20-23 June 2013 on Lake Murray, South Carolina.

On Thursday (20 June 2013) will be registration and measurements. On Friday, racing will begin at noon and continue all day Saturday with an awards dinner Sat. eve. Friday eve will feature a dinner with entertainment out of this world. Sunday will be a makeup day, if no race is completed.

We are planning to weigh boats along with the usual boat and sail measurements to ensure one design racing in both All Sails and Working Sails Divisions. We will attempt to have some good boats available for charter. To be scored in the regatta, all skippers must meet the eligibility requirements of San Juan 21 Class Association By-Laws 2.4 Article IV.

The CSC puts on a number of major regattas throughout the year and is looking forward to having the regatta. The CSC club house is fully air conditioned. There is plenty of boat trailer parking and dock space. A camping (RV's need to reserve space in advance) area with power and showers is located next to swim beach. Many motels are close by. If desired, competitors can arrive several days early and enjoy the CSC facilities and tour the Columbia area which has one of the best zoos in the country (Riverbanks Zoo: www.riverbanks.org).

Take a long look at the CSC web site (www.columbiasailingclub.org/) and at Google Earth at 34 deg 3.852'N, 81 deg 13.696' W.

Please check out the venue in person by coming to the Outback Regatta 28, 29 and 30th September and on 2, 3 and 4 November is the Midlands Open Regatta.

National Regatta Committee:

East Commodore Carlton Brown

Chief Measurer Mike Chesser

CSC, Fleet #31 Organizer Dick Dommel
